

Yousef Anwar Morar

Full Stack Developer

Amman, Jordan | +962 78 005 0943

ymorrrar4@gmail.com | [LinkedIn](#) | [GitHub](#)

Motivated Full Stack ASP.NET Core MVC Developer with a solid background in building and refining dynamic, secure web applications. Proficient in ASP.NET Core for backend development, with complementary skills in C#, SQL, and front-end technologies like HTML, CSS, and JavaScript. Strong ability to collaborate within cross-functional teams to deliver high-performing solutions that align with user needs and project goals. Known for attention to detail, effective problem-solving, and a commitment to best practices, with a focus on continuous growth and technical expertise.

Core Skills

- **Frontend Development:** Builds responsive, interactive interfaces using HTML5, CSS3, JavaScript, and Bootstrap to enhance user experience across devices.
- **Backend Development:** Develops secure, efficient back-end systems with ASP.NET Core, focused on data processing and API management.
- **Database Management:** Designs and optimizes relational databases in SQL Server for efficient data storage, query performance, and data integrity.
- **Azure Cloud Services:** Deploys and manages scalable applications on Microsoft Azure, leveraging cloud services for performance.
- **Problem-Solving & Debugging:** Skilled in diagnosing and resolving issues within the ASP.NET Core MVC stack to ensure stable application performance.
- **Object-Oriented Programming (OOP):** Strong foundation in C# with a focus on OOP principles, enabling scalable and maintainable applications.
- **Software Development Lifecycle (SDLC):** Knowledgeable in Agile methodologies, including version control, testing, and deployment practices in ASP.NET environments.
- **API Development & Integration:** Proficient in creating and integrating RESTful APIs for seamless communication between front-end and back-end systems.

Work Experience

Worker

Oct 2020 - Mar 2022

Philips 66 | Connecticut, United States of America

- Enhanced customer service and daily operations, improving English communication skills in a fast-paced environment.
- Managed cash register operations, ensuring accuracy in accounting and efficient financial reporting.

Network Engineering Intern

Jun 2018 – Aug 2018

Al-Imam Mohammed Ibn Saud Islamic University | Riyadh, Saudi Arabia

Training

Full Stack ASP.NET Core MVC Training

Oct 2024 - Present

Coderz for Software and Training | Amman, Jordan

- Develop dynamic web applications using ASP.NET Core, HTML, CSS, and JavaScript.
- Designing SQL Server databases for optimized performance.
- Collaborating with teams to enhance application efficiency and user experience.
- Implementing secure authentication and user management practices.
- Utilizing Git for version control to improve workflow efficiency.

Projects

Web Interface Portfolio | *HTML5/CSS3, JavaScript ES6*

Jul 2024

- **E-commerce Frontend:** Developed a responsive e-commerce website showcasing product listings and a shopping cart, using front-end technologies and APIs for dynamic data.
- **Full-Stack Blog Application:** Created a full-stack application with user authentication and CRUD operations, utilizing a backend framework for data management.
- **Weather Dashboard:** Developed a real-time weather dashboard utilizing JavaScript and a public API to display current weather conditions and forecasts.
- **To-Do List Application:** Created a task management application that allows users to add, delete, and mark tasks as complete, leveraging JavaScript for dynamic content updates.

Secure Quality Requirements Management System | *Java*

Apr 2018

- Developed a Java application to manage quality requirements with secure data storage, user tracking, and role-based access control.

Obstacle Avoidance System | *C++*

Jun 2015

- Created a grid-based obstacle avoidance system in C++ using BFS for optimal pathfinding, with dynamic obstacle placement and real-time path adjustments.

Education

Zarqa University | Zarqa, Jordan

Oct 2018 - Sep 2020

Master of Software Engineering

Graduated with 85.5% (Excellent)

Imam Muhammad Bin Saud Islamic University | Riyadh, Saudi Arabia

Sep 2013 - Aug 2018

Bachelor of Computer Science

Graduated with a GPA of 4.49/5 (Second Honors)

Received the Second-Best Graduation Project Prize from Intel Company

Publication

Verifying Usability in Mobile Applications

Jul 2020

- Co-authored with Dr. Mohammad Rasmi, published in IJSTR (Scopus-indexed).
- Explores usability metrics and testing for enhancing mobile app user experience and accessibility.

Certificates

C++ Object-Oriented Programming

Apr 2023

Programming Advices | Amman, Jordan

Languages

- **Arabic:** Fluent
- **English:** Very Good
